

# US EPA STORMWATER PROGRAM PHASE II REGULATIONS FOR MUNICIPALITIES WITH POPULATIONS OF LESS THAN 100,000 RESIDENTS

## New permit requirements for Municipal Storm Sewer Systems include:

- Illicit Discharge Detection & Elimination
- Construction Site Runoff Control
- Post-Construction Stormwater Management
- Pollution Prevention

**GEA WATER SOLUTIONS** provides civil-environmental engineering and consulting services for towns and villages to achieve EPA & NYSDEC regulatory compliance.

Our services include:

- Detection of Illicit Discharges
- Delineation & Mapping of Storm Sewer Systems
- Use of GIS
- Smoke Tests & Dye Tests
- Location of Outfalls
- Assessment of Storm Sewer Capacity
- Hydraulic Modeling Studies

Culvert & Storm Sewer Rehabilitation

**GEA Stormwater Management Plans** include the preparation of regional watershed studies for the development of area-wide stormwater quantity and quality mechanisms for the control of increased runoff and pollutants resulting from land development and redevelopment.
